Subject: High Priority: OIG Listening Sessions - Anaconda Smelter

Good morning Betsy and Sandy,

We have been asked by Ryan Jackson (Chief of Staff) for some additional information regarding the OIG listening sessions at specific sites. We have been asked to identify whether there were existing opportunities at these sites for the OIG to attend instead of having conducted/scheduled their own meeting. For example, there might have been a public meeting or other type of public/community meetings already planned/scheduled that the OIG might have been able to participate/attend. In your case the OIG has scheduled a site visit for July 8 for the **Anaconda Smelter Site (R8)** Anaconda, MT. Was there something already previously scheduled or planned that they could have participated in without scheduling a separate event? I'm thinking maybe the public meeting in July/August for the proposed plan? What do you think?

A few sentences would suffice. If you have any questions please contact me at the cell number below. And the timeline for this is early next week...so apologies for yet another drill.

Thank you!
